PKI Integration And Digital Signatures

A PKI enables users of a unsecure public network such as the Internet to securely and privately exchange data through the use of a public and a private cryptographic key pair that is obtained and shared through a trusted authority. We provide PKI integration for secured and authentic transactions. Digital Signatures provide authenticity digital messages such as email, documents and code distributed via the Internet. We offer an entire range of Digital Certificates tailored to address various needs of the Market.

Key Offerings

👉 LRA (Local Registered Agency) for Digital Signatures from (n)Code Solutions

👉 Custom PKI Integration with any Enterprise Application

RFID Based E-Seal Solution

The Customs department of India has mandated that all containers sent to the ICDs/Ports shall require RFID based E-Seal.

ID Tech Solutions is a registered vendor with Central Board of Excise and Customs who has developed a foolproof solution to meet the requirement of Indian customs circular number 26/2017 – Customs dated 1st July 2017 on the provision and use of the RFID based container E-Seals.

XtraNet is an authorized distributor of ID Tech Solutions and can help exporters to meet this new mandate by providing end to end solution.

BPO & Call Centers

A proven track record of 10+ years of experience in providing BPO services. At XtraNet, we have developed & customized an integrated BPO platform leveraging the state of art infrastructure, technology skills and well-laid down human policies.

XtraNet has acquired brilliance in delivering enhanced levels of customer satisfaction with our stringent quality practices coupled with smart people and pragmatic management practices; the primary element that separates us from our competition.
